

## 214-EXTENSION, MEMBERSHIP, AND CONSERVATION

***One of the most important Committees in your club for its strength and multiplication.***

"Extension" means the starting of new clubs to serve the Y and communities.

"Membership" is a reminder that we need to work continuously to increase the membership of our clubs, especially these clubs with less than 20 members.

"Conservation" means the retention, training and encouragement of the members and clubs that we presently have.

For more detailed information refer to the following booklets from
